

# Touch™ WiFi Dimmer Switch, Tru-Universal Master, White

ADTH700MMTUW2

The translucent glass-like face works just like an iPhone® screen—simply press your finger on the circle to turn lights on and off, or use the arrows on the right to dim them. And thanks to its patented Tru-Universal technology, this dimmer automatically adapts to any light load, light bulb type, or combination of loads attached to it, eliminating flicker, early dropout or "pop-on" deficiencies that can often plague other non-adaptive dimmers. Pair it with any fixture and you're done!

Wall plate not included.

For WiFi functionality to work, this product must be paired with [The Hub \(LC7001\)](#).

## features & benefits

- The adorne collection offers multi-location and [whole-house lighting control](#) options using the Legrand-patented Topdog™ radio frequency technology that allows devices to communicate seamlessly together, eliminating the need to run new traveler wires from device to device. Each of the systems feature switches and dimmers in multiple adorne interface types, including this one. It's no longer necessary to tear sheetrock to enjoy the ambiance, convenience and energy-savings that lighting controls offer.
- Ideal solution for any size remodeling projects in which you want to control a light wirelessly from more than one location without rewiring. \*Must be paired with the adorne [Touch Wireless Remote Dimmer](#) and the master dimmer must be wired to the light to operate properly.
- **Tru-Universal** technology enables the dimmer to support all load types, including incandescent/halogen, Magnetic Low Voltage (MLV), Electronic Low Voltage (ELV) in forward or reverse Phase, CFL/LED, etc.
- Easy "1-for-1" snap-in installation lets you upgrade your existing 700W dimmer to adorne in just minutes.
- Innovative assembly fits into your existing electrical box and no new wires are required for typical installation.
- Pair with the [adorne Touch Switch](#) for a beautifully uniform look or smart add-on accessories like the [adorne Accent Nightlight](#) to add a wash of light below the device.
- Further customize your look with [adorne wall plates](#) in a brilliant palette of dozens of colors and a variety of luxurious materials.
