BRAZIL CABINET

ITEM #R25372

Influenced by the buildings of Brasilia, the capital of Brazil, this cabinet's architectural grid artfully camouflages a mix of doors and drawers. The cabinet appears to float on eight tapered gold finish steel legs. Made of reclaimed teak with a wire brush ceruse finish. The center of the cabinet has three drawers with touch latch mechanisms flanked on each side by a pair of doors that conceal one adjustable shelf. The cabinet is perfect for use under a flat screen TV and will accommodate most electronic equipment. The versatile design also works beautifully as a console, sideboard, or the focal point of any room.
